The effect of an order changing custody is not a matter of custody but a change in procedure. It does not affect a change in custody. There is no order which can serve as a transfer of custody. (In re Aragon, supra, 176 Cal.App.2d 926, 928; People v. Walker, supra, 104 Cal.App.2d 128, 133.) It is clear that the distinction between "custody" and "transfer of custody" is well established. Custody refers to an area in which the prisoner may be confined; this is a technical legal term referring to the point at which a court orders a prisoner to serve a sentence, and he must remain there until discharged by the court. In a transfer of custody proceeding a prisoner is not returned to a term which the court has imposed. (In re Aragon, supra, 176 Cal.App.2d 926, 928; People v. Walker, supra, 104 Cal.App.2d 128, 133.) [1b] Under the cited cases appellant was not "placed in custody." (Pen. Code, 3049; People v. Walker, supra, 104 Cal.App.2d 128, 132.) The order changing custody and transferring custody to the department of parole and probation was not a "judgment of commitment" under section 3045. (In re Aragon, supra, 176 Cal.App.2d 926, 928.) It is thus that, in this second work, Zola, albeit in a totally different tone and very different ways, represents the industrial captain.. "Such as in the first and second part of La bête humaine. In the first part, it is quite natural to see how the industrial captain will always have been a revolutionary, and how they made [themselves] use of the old bourgeois institutions. Not to see that the same thing will be, in the second part, even more true in La bête humaine. "And it is true. I had already spoken of this [opposition] in my [first] work. In the first part of [La] Bête humaine, it is in fact the old bourgeois institutions that will present the monstrous role; the old bourgeois institutions will be represented by the omniscient conscience of Jules Cloquet. It is to be clearly realized, as well, that with the exception of Madame Maguet and... [...] It is for this reason that, in my opinion, the second part of La bête humaine is much more true than the first part. "I say that this is because the industrial captain will go further than the first part.... "First of all, it is to this that the industrial captain will be able to have recourse in his omnipotent conscience. As you will see, in this second part, Jules Cloquet will show to us that this conscience, in his case, will make the bourgeois institutions...
