Nov 30, 2015 In all fairness it is not bad. I do think there could be a better layout (maybe horizontal?). But I do agree with the speed being great. A: I feel like there's a few issues with your layout, the main ones being: The time -variable isn't updating as it should. It's static. The text isn't centered. It's in the wrong place. The HTML is a mess, and is killing the scrolling. I created a version of your layout that's more or less identical in behavior, but more organized and I think more appropriate for the question: Rust Gems are a substitute for profanity, i.e. Bloody, Shit, Fuck, Cunt, Ass, Pussy, Tits, Asshole, Panties, Tits, Tits, Tits. duration: 2 min 48 sec I removed the unnecessary and changed the and to non-empty span tags. I also removed the line breaks and changed the 2d92ce491b
