Just use the smallest hand tool to put the tape around the lip of the hole. Cracks can appear on a finished wall as a result of internal moisture, chemical. Also, gaps around windows and doors can be caused by moisture seepage.. There are several inexpensive tools available to help prevent or eliminate cracks.Synthesis and cytotoxic activity of pyridine-2-carboxamide and thiazole-2-carboxamide derivatives. A series of 2-pyridine-2-carboxamides and 2-thiazole-2-carboxamides were prepared and their in vitro cytotoxic activity against a

panel of human cell lines was determined. The structure of the compounds was elucidated using spectral techniques. In all, 60 compounds (14 of pyridine-2-carboxamides and 46 of thiazole-2-carboxamides) were prepared and tested in vitro for their cytotoxic activity. All compounds were prepared as their acid addition salts. Some compounds were also prepared in a form suitable for biological evaluation. The pyridine derivatives showed significant cytotoxicity, with growth inhibition of a range of human cancer cell lines. In particular, compounds containing a pyridine-2-carboxamide
