gif missions to capturing or destroying enemy planets. The extensive single player campaign provides a rich, multi-layered experience, with missions for all skill levels and player preferences. The action-packed single player campaign provides a vast and detailed story in which players can travel with their favorite Wing Commander pilots through the galaxy. The gameplay is intense and frenetic, with a futuristic battle simulation and an awesome science fiction story. With over 30 different ships in their arsenal, players can choose from the versatile Viper and expandable Saratoga class warships, as well as fast interceptors, space fighters, multirole fighters, fighters, assault ships, and a large number of combat and transport vessels. Players will be able to pilot either a very agile medium fighter, or an extremely capable large fighter. A large number of planets to explore and many interactive missions. There are 22 different action missions (scouting, intercepting, defending, ...), along with 10 different combat mission types (combat scouting, infiltration, escort, pursuit, counterattack, ...). 1750+ ships of different types, including ground, air, and naval craft Over 60+ missions 46 detailed interactive scenarios with multiple endings 13 detailed campaign scenarios 12 multi-scenario campaign scenarios More than 40 weapons, ranging from energy weapons to missiles, torpedoes, photon torpedoes, lasers,

beamers, missiles, rockets, and torpedoes Over 700 000 ship parts In addition to standard single player action and combat scenarios, a large number of tactical and strategic scenarios are also available. These can be divided in two categories: Strategy-Based Scenarios A large number of scenarios with a varying degree of difficulty. Tactical-Based Scenarios A vast variety of scenarios to provide players with a choice of numerous tactics to use, depending on their play style. 2D and 3D Graphics The graphics have been extensively modified. High-resolution textures and new special effects make the graphics superior to those of Wing Commander 3. It also supports both 2D mode (640x480) and 3D mode (800x600). Real Time Strategic Game Engine The RTS Engine is a direct descendant of Wing Commander 4's strategic engine. The gameplay is extremely fast, yet the player will be able to handle huge battles with large fleets of ships and hundreds of star systems in a matter of minutes. Challenge mode and secret
