Activex4excel 1.0 Beta 1 Changelog. activatedx4excel. Activatedx4excel 1.0 Beta 1. 32bit. Activex4excel – is a. program that lets you control activex controls from Excel VBA. SOT: Uninstall ViBE software from laptop. Activex4excel. The VBE is not loaded before the first invocation of a sub or function that uses a user-defined ActiveX control, the exception that is the case of the Events module and the standard module used for the event This module allows to add an ActiveX control (for example a button) to a window (for example a form), and to handle events generated by the control in the window. The usual approach consists in modifying the Windows Registry by adding a string with the name of the control (using this.GetChild. this.W).In the VBE, this name is stored in the subroutine InitActiveXCtrl. Once the control is added in the window, the routine AttachActiveXCtrl is called, in which the user has to specify the type of control, its location and the name to use in the Windows Registry. SOT: Uninstall ViBE software from laptop. When you remove the control with the Windows Delete function, the unregistering of the control is performed in the UnloadActiveXCtrl routine. When the control is removed, it is also automatically unloaded. To unregister a control and its object, you must first call the UnloadActiveXCtrl function. VIQ
