## {CRRedist2005 X64.msi}

try or find CRRedist2005\_x86.msi. If that doesn't work, there may be another way for you to get the version you need. I found that I can download from the Microsoft site (<http://support.microsoft.com/kb/936176/en-us>) and install it as Windows.Installer.exe. Maybe this will help. I had the same problem and I just installed the Windows.Installer.MS.Etch.x86.VC.2008.1.0.130.exe package and I did a clean install and the problem was solved because I couldn't get the updates I needed . Hope this helps.
