
FREE |VERIFIED| Download D3dx9 42 Dll Need For Speed Hot Pursuit

hello! I recently bought Need For Speed €€Hot Purpose through Origin and when I try to run the game I get: Invalid license missing dll: d3dx9_42.dll. This happens on Windows 8.1 x64. (I use an SSD instead of a regular HDD). I have searched the web but all I got are solutions for Windows 8. I even tried to install Windows 64 bit but I still get the same error. I downloaded DirectX 11 from the Microsoft site and installed it, but it didn't help. Any help is welcome!

Sincerely, Michael
