KeyMarketboard Is A Mac OS X FileMaker 13 Template KeyMarketboard is a Mac OS X FileMaker 13 template that allows

users to create a database of the stores or websites they frequent most often. When it was first created, keymarketboard was inspired by a feature in Yandex.Metrix which is a tool that allows you to quickly identify the most visited web pages on the Internet. This feature, which is a great and much-needed addition to Safari, is in my opinion the best thing that Safari has ever done. If you are looking for a useful and fast tool to use for a website that you visit frequently, I highly recommend you check out KeyMarketBoard. Download: INSTALLATION 1. Go to the folder: /Library/Application Support/FolderX/KeyMarketboard 2. Open the KeyMarketboard Folder 3. Copy the KeyMarketboard Folder to your hard drive. 4. Rename it: \$(DesktopAppPath) 5. In Finder: "Get Info" on the "KeyMarketboard" Folder. 6. In the "Get Info" window, make sure the "Always open with" box is selected. 7. Click on the "Applications" tab. 8. Select "Use Folder as Default" (NOTE: The Copy Folder button will be grayed out until you select "Applications") NOTES: 1. This product has been tested on Mac OSX 10.6 (Snow Leopard) and 10.7 (Lion). 2. You must also have either: -.NET 4 Framework – Mono.framework You can use these with the current versions of Mac OS X, without 3rd-party updaters or recompilers.
