My Place delivers the power of social to help you build lasting relationships and grow your business.The GT300 class of the FIA World Endurance Championship will feature a partial reduction in grid size this year, with as many as four cars now allowed per team. The additional capacity comes in the form of an additional car for the GT300 class that will be eligible to score points. The Japanese squad Realize-run Lexus LC500 previously won the Japanese Super GT Championship with the previous-generation model last year. The car is expected to be in WEC competition for the Endurance de España, which begins June 26-27. "It is the decision of IMSA, the championship's management and IMSA team principal Eric Boullion to allow the participation of four cars for the GT300 class," the FIA statement said. "As previously announced, the two eligible for the LMP2 class will only be allowed to participate in the six hours of the Le Mans 24 Hours." There had been speculation of a cost-saving measure to allow Lexus to join the GTD class in WEC, which will be called the LMP3 class this season. "No, absolutely not," Boullion told SportsCar365. "This is a statement of fact; we are not cheating in any way. "This is an opportunity for the Japanese to move in with
