I want to download the Magix software and upgraded version. 1. Uninstall program. 2. Change the program for language of the program.Q: ajax with dynamically created classes I'm attempting to add new input elements, of class userName, to a form at the click of a button. The format of the class is as follows: The content of the input is populated from the database and this is stored in a variable the className. What I need to happen now is to create a form and add input elements to it, which I do with: \$('').attr('action', actionUrl).attr('method', 'post').addClass('addPost').appendTo('#posts'); The next line is the part that actually creates the input elements and this I have just
