WANT To FINISH Your FULL IDEAS? Then you NEED TOP LEVEL PRO SUPPORT! It will Make A HUGE DIFFERENCE: I have been monitoring my product and related forums and have identified that many people need a TOP LEVEL PRO for their project. A professional on top of their game who has the time to follow up on their product, to be sure the end product is great and above all to respond quickly. I have come to realise that I have actually spent close to 8 hrs on PRO support on 2 occasions...and then spent the next few days catching up on my emails and posting replies. IF YOU DONT HAVE TOP LEVEL SUPPORT YOU ARE HURTING YOUR PRODUCT! The TOP LEVEL PRO: This person will listen to your project needs and implement them! This means you are working with a PRO who IS also a PRO! And on

your project. So when you contact TOP LEVEL PRO support you are getting: ✓ A PRO who will listen to your project needs and implement them! ✓ Someone who will respond quickly to your messages, ✓ Someone who will ensure you are satisfied with the end product. ✓ Someone who has the time to really follow up and make sure your project is perfect! ✓ Someone who knows what they are doing and isn't "just a PRO!"

You get the picture... And that's why when you are working with TOP LEVEL PRO support...you need to expect a level of service above the standard services. PRO

SERVICES: The services I provide are the same as those received by TOP LEVEL PRO's but with minor tweaks and additions. Your needs are taken into consideration when offering the same level of service. But I still have some "fun" to do on your behalf.

1. Most PRO's will charge you for support but that's just the standard price. I provide "support for free" at the beginning of your project. 2. Once you have a "normal" service from a PRO you will receive ✓ A receipt for your PRO service, ✓ A written follow-up on your PRO service, ✓ A written signoff for your PRO service, ✓ A PRO invoice statement for your PRO service, ✓ A PRO report of the invoice statement ✓ A PRO thank you letter and invoice, ✓ A PRO follow-up report ✓ A PRO follow-up letter and invoice. This is to ensure your 1d6a3396d6

Having one of the most enjoyable global online games experience under its belt, Wizards of the Coast has been hard at work on the next iteration of its tabletop role playing game, Dungeons and Dragons. With the upcoming release of the Dragonlance Chronicles in August, players can find themselves in the world of Krynn once again where heroes and villains alike must take control of their own destiny while battling other players and their best friend. Tracking sports and other physical activities or exercises can be beneficial. It can give users a sense of progression as well as help them manage their schedule. SportsTracker provides users with an easy to use means of following and managing their exercise schedule. Easily track sports sessions The application features a simple and intuitive interface. Its main window enables users to view a calendar of their past, current and future activities. Users can add multiple activities per day and customize each of them in terms of type (for example: cycling), subtype (example: road tour), intensity, distance, speed, added weights and duration. The application can calculate one of these last three factors based on the other two. For example, it can calculate the speed based on the duration of the exercise and the distance covered, or the other way around. This feature can come in handy if one has no way of recording one of the parameters. One can also provide data regarding average heart-rate and calories consumed or import data from HRM files and attach comments to each exercise session. View detailed information about your activity The application provides several ways of viewing one's activity. The previously mentioned calendar-view displays a weekly sum of covered distances and a total of hours spent exercising. Users can also access a detailed, sortable, list view of their activities, filter them by date, type, intensity, equipment or by comment, using regular expressions. The program can then provide total, average, minimum and maximum values for distance, speed, duration, heart rate and calories consumed. Graphs can be generated to display the above mentioned data over various periods of time and the program features an

ExerciseViewer tool that can open files generated by common and popular heart-rate monitors. This is a wizard of the ring 25 years in the making and ready to be put to work.
