Instructions for hacking Wilcom Embroidery Studio e2. Creating beautiful embroidery requires the right approach. In order to correctly determine the size of the embroidery, you will need special knowledge. And also it is necessary to make the right choice of fabric. The maximum size of the 2D embroidery machine is 660 mm. Therefore, for embroidery, first embroider a 2D area, and then you can already wind the embroidery canvas onto the thread. First, select a port. Because your embroidery canvas may be different. How to choose the right canvas you will learn in the section Types of fabrics. After choosing the size of the embroidery canvas, you need to select a program. Embroidery program. When choosing an embroidery program, you must know what the program is for. I

chose the embroidery program CANNEL SWITCHER

2. In it you can create beautiful cross stitch. This requires all the necessary settings. You also choose the size of the embroidery block, canvas. Another important setting is the level of needle tension. If you want to use USB 2.0 to connect a computer and CD / DVD drives, then you need to select DVDDVD in the menu and select the connect item. If you will work with a printing program, then select the insert. Now you can press the power button. At the top of the menu, select the program for creating embroidery. Choose Kanven Sheverder 2. Select the program mode. 1 standard and 2 for embroidery blocks. Then press the start button. The pattern for the embroidery fabric goes to the finished embroidery counter and the embroidery foil counter. This means that when you press the button on the finished embroidery counter, it will count down to zero and it will start counting the embroidery foils. This is necessary in order to understand how much time you spent on the process of creating your embroidery work. The embroidery unit then turns off and the image you are embroidering is ready. Machine numbers will start to appear on the

embroidery surface counter. In my case, it will be 108.

If you need to count the numbers of cars in several stages, then you can put whole rows on the counters, not dotted numbers.
