Why Did I Destroy This Guy's iPhone? - snreese ===== shocks For what it's worth, I'd expect lawyers at Apple to have better taste than customers that have a technical argument to make. "Your iPhone is stuck in the boot loop for some reason. Here's a white paper that describes why in 'human' terms" ----- thejteam Not to be snarky but I have a 6 month old iPhone 3G and I think that information is only useful when you have an Android based mobile device. So I really don't understand why you feel that you are somehow owed this kind of information. ~~~ snreese The difference is that this is an _iPhone_. Not iPhone + Android But, iPhone + anything could do that with an Apple device... ----- davidcollantes In a way, a client is lucky to get this kind of feedback. When clients are not very technically aware, they stop paying attention once you give them an explanation. I have little doubt that if this post got flagged or something, he would not have received the proper response from Apple. ----- curiousDog I'd like to know if the model of iPhone he is talking about is on the 15th gen. His post doesn't specify. If it is, the headphone jack is no longer available. ----- afsina I think you know you are getting too old and you are in a bad mood right now. ~~~ snreese As a matter of fact, I have a 6 month old iPhone 3G. And I'm not "too old" and I am "in a bad mood" because I was on the receiving end of a hammer. ----- pavs If someone handed 648931e174

Shaderlight for SketchUp is an interactive rendering software plug-in to SketchUp for Linux .Q: Does ESP8266 require firmware updates? I have an ESP8266 Wifi module connected to a WiFi router via a simple SPI hack,

and works great. I just noticed that the ESP's official web page says The ESP-12 module is available in a pre-programmed Serial Peripheral Interface (SPI) flash version and requires firmware updates. The commands in this project use the default factory settings. Does the ESP8266 actually need firmware updates? Is there a minimal firmware that is required for using the ESP as a WiFi module? A: The ESP-12 is the only ESP8266 variant that needs to update firmware. The ESP8266 itself is just a microcontroller, the firmware is loaded once in the chip. It is true that the ESP8266 firmware was
