In this article we will find detailed and simple guides to help you create high-quality GIFs, modify your pictures, add cool frames, add text and watermarks, and much more. Best of all, you will only need the \$15 Adobe Photoshop Elements 15.0 that you can buy for iOS, Android, or Windows. How to create a GIF From Scratch in Photoshop Elements Today we have our own tutorial about creating a GIF from the scratch using Adobe Photoshop Elements for free, if you want to make it for commercial use please read our Terms of Use of the website. You can start by downloading Photoshop Elements or if you already have it installed, launch it. Next, import the file that you want to create a GIF from, a JPG or PNG image works great. Once you do that just double-click on the file and the import dialog will appear If you want to use a certain image as your base for your GIF, select the "Make a Pattern" option and follow the steps on how to make a pattern in Photoshop. Now you can either create a new file or replace the existing one and start working on the picture. In case you wish to add a mask, you can do that in the Layers panel or by creating a separate layer, for the steps, click on the "Layer" button. Now you have to make sure that the layer mask

is active. Just right-click on the layer to reveal the layer menu and select “Mask” from it. Now, if you wish to place your mask over another image make sure you use the “Move Tool” and follow the steps and steps in this tutorial to move the mask to the place you want. You can also resize the mask. To do that, select the mask and use the “Free Transform” option in the toolbar. In this tutorial you can either use the “Skew Horizontal” or “Skew Vertical” option to distort the mask. You can add a few more steps that change the appearance of the GIF to get more realistic or fun effects, here you will learn how to create a cartoonish effect by resizing the mask. Step 1: Create a new layer and add a new shape To achieve this effect, first select the layer that you want to make your mask and press Ctrl + 05a79cecff
