What's new in Fifa 22:

- **Tactics are now at your fingertips in UEFA Champions League Career Mode, offering the first improvement to our mobile game ever. Free your players to concentrate on the strategy; you have to choose every single tactical decision in every single match.**
- **Matches now feature stoppages of play for off-sides, when a players legally becomes offside – these create great tactical opportunities; develop self-ins, or use free kicks with your opponents' defenders already offside, meaning the ball is more likely to strike the ball.**
- **Your ability to trust in your players on the pitch has been enhanced. No matter if they're injured, overworked, or even offside when you want them, they'll now automatically run back, and play their part in exciting moments at the right time.**
- **Patience has never been more important. You'll find that players you groom are no longer always the replacements on your first-team squad.**
- **Quality First timers will be more important than ever. Spend time, effort and a bit of cash to develop them and, as a result, you can find you have a more potent squad. At other clubs, spend less cash to upgrade a couple of your established players, and you'll find your new signings quickly become stars.**
- **Rather than limit your dream teams to only two players from each star nation, you can now make a dream team of 23 players, meaning you'll have even more superstar opportunities.**
- **Quick tactical switching has been improved. When a big switch on the fly comes in, it's now easier to make the appropriate adjustments.**
- **Newcard animations including button pressing, ball control, jumping, and more.**
- **Women's World Cup and UEFA EURO 2016 are on PlayStation 4 with FIFA 22, giving you more immersive gameplay experiences during this year's biggest global football tournaments, including the Player Introductions.**
