Download Wallpaperio iPhone 4 Maker Product Key!“To love someone is to love their darkness as they are, not as they are imagined.” - Andrew Cohen Rape is the

unconsensual penetration of a person's intimate parts (vagina, anus, mouth) by another person, or someone acting on that person's behalf, without consent. In essence, it is the act of violent sexual intercourse performed by someone other than one's spouse. In order to prove rape, the violence must also be accompanied by a threat

of force or the use of physical power against the victim, or someone acting on the victim's behalf. Simple words and simple explanations do not make rape simple. Rape is viewed by many, as having a victim by nature; someone who is neither imagined nor desired. That is why, there is such a fear of reporting rape and rape

is seldom prosecuted. I walked into the darkness that night, not realising the terror that had hit me. The truck waited for me in my wake. I did not know that it was my own road that had brought me home, nor that it was my own hand that had locked the door behind me, nor that it was my own hand that had been covered in blood; a blood

that could not be wiped off, neither wiped off nor washed away. I did not know that I was not safe; that no space was safe. That night, I came home at night, alone and alone, into a world that was not mine. It did not belong to me, nor did it belong to any one else. This is the space that we live in; in the darkness. This is the space that for years I

have wrestled with, wrestled with, as I peered into the dark and tried to navigate the murky space. My nights had turned into days and my days had turned into nights. I had lost my night and I did not know what to do with myself. I am still trying to figure it all out. It is, after all, a bloody, complicated mess, to say the least
